LESHA INDUSTRIES

TECHNICAL DATA SHEET

PRODUCT – HYDRAULIC CARGO MAST LIFT 2T

Model:- LI-ML-2T

KEY SPECIFICATION

Capacity	2 Tons
Platform size	1500x1500mm
Lifting Height	4000 mm

ELECTRIC SPECIFICATION

Powered by	Electric motor
RPM	1450
Power spec	220/380 V, 3Phase 60Hz
Make	Italy

HYDRAULIC SPECIFICATION

Operation Pressure	150 bar
Max. Pressure	280 bar
Rated displacement	14cc
Lifted by	Hydraulic cylinder
Cylinder type	Single acting
Tank Capacity	40L

TECHNICAL PARAMETERS

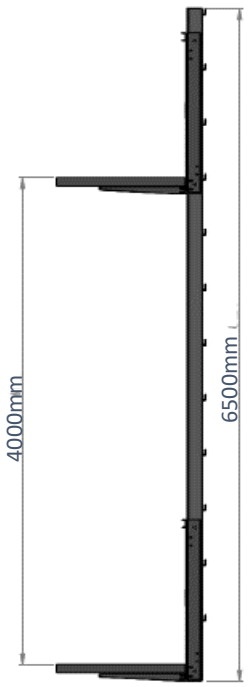

Lift height	4000 mm
Total height	6500 mm
Lifting speed	55 sec
Platform length	1500mm
Platform width	1500 mm
Machine size	6500x1800x1500 mm
Weight Approx.	1800 kg
Platform material	Steel Non-Slip, 3 mm thick
Surface finish	Anti-corrosive – RAL3028 and 5001or others as specified

OPERATION

Control	Three button (Manuel)
Control Panel	Heavy duty shielded

Safety/Other Features

- Safety Limit switches in case one of steel wire cut.
- Security valve in lift cylinders to block the table in case of hose break (hose burst valve).
- Safety Limit switches in case one of steel wire cut.
- Safety instruction stickers.
- Manufacturing special requirement, deferent capacities and sizes.
